

2013 MEETING OF THE JOINT PLANNING BOARD / NATIONAL COUNCIL ON DEVELOPMENT PLANNING, UYO, AKWA IBOM STATE

RE-SETTING THE NIGERIAN STATISTICAL SYSTEM FOR EVIDENCE-BASED POLICY FORMULATION, PROJECT AND PLAN IMPLEMENTATION

DR. YEMI KALE

Statistician-General of the
Federation

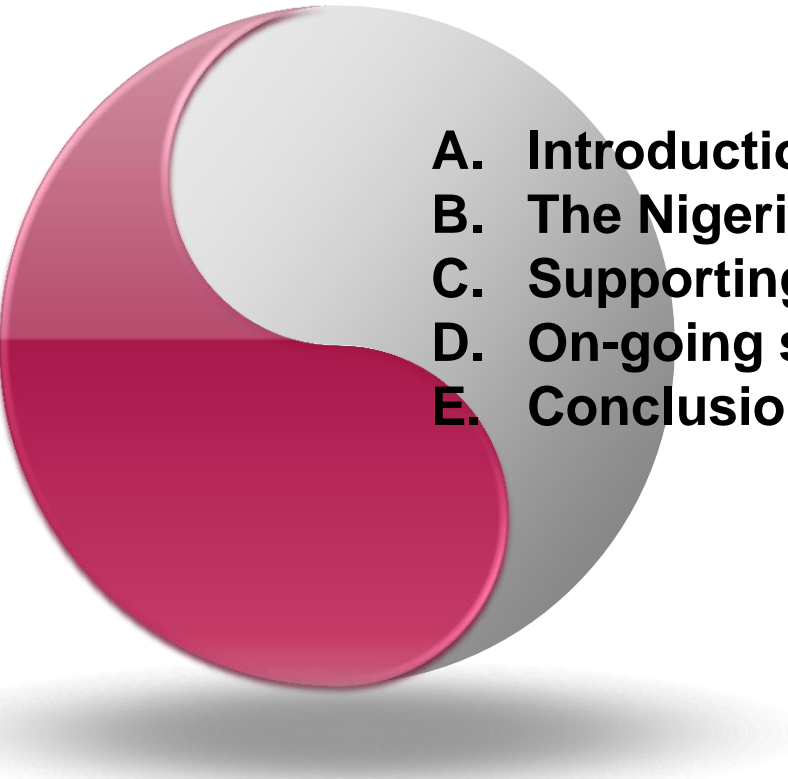

National Bureau of Statistics
Abuja.

30th OCTOBER 2013

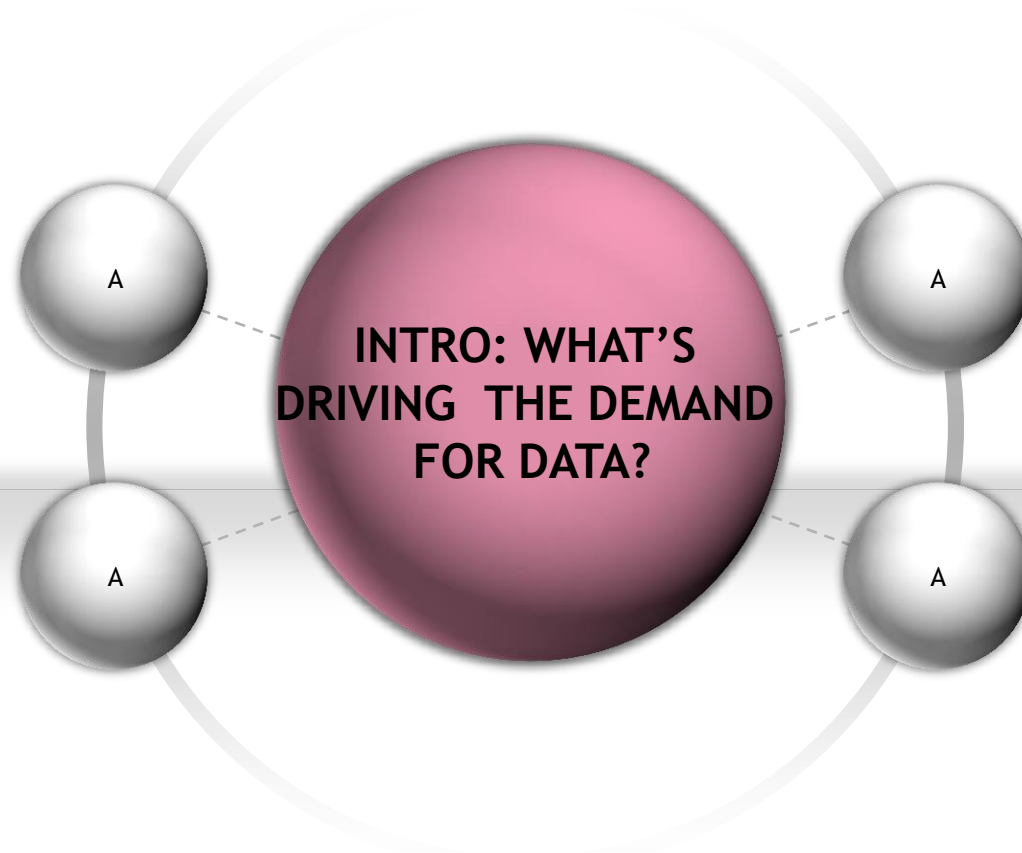

OUTLINE...

- 
- A. Introduction: What's driving the demand for data?**
 - B. The Nigerian Statistical System - and how it works**
 - C. Supporting evidence-based policy-making**
 - D. On-going statistical initiative**
 - E. Conclusion**

SECTION A

INTRODUCTION...

There is increasing demand for and attention on Nigeria's economic statistics...

Demand for Nigerian Statistics 2005 and 2012

	Performance Indicators	2005	2012
1	Reports downloaded	48,479	1,015,6454
2	Request for data onsite	23	334
3	Request for data email	106	4,882
4	Visits to website/ No of hits	36,280	4,486,112
5	No. of times NBS mentioned in the media	73	3,365

INTRODUCTION...

What's driving the demand for data?

SURGE IN NIGERIA'S DATA DEMAND

INTRODUCTION...

What's driving the demand for data?

“Nowadays, it **is Africa** that is the continent on investors’ lips”,
Zin Bekkali, chief executive of Silk Invest,
a boutique asset manager

EXOGENOUS DEMAND

Abundant good news...
Goldman Sachs report
on N11, improved
ratings, macro stability,
and validated by IMF
and Wbank reports
from 2005.HBS report
rating NGR high on as
top 30st most
important economies
etc

JP Morgan and Barclays
adds NGR bonds to
emerging market index
etc.

Unprecedented surge in
FDI (\$9bn in 2012 in
NGR and over \$55bn for
Africa)

60percent of NSE
owned by foreign firms
from less than 5
percent in 2000

Unprecedented
increase in trade and
financial flows.

INTRODUCTION...

What's driving the demand for data?

Major international brands entering the Nigerian market in the last three years.

INTRODUCTION...

What's driving the demand for data?

Statistics Budget profile 2006-2013 (\$US)

ENDOGENOUS DEMAND?

Recurrent budget (mostly personnel costs) for the Bureau has been high over the years

The **capital budget** on the other hand, finances key surveys and projects and has largely declined since 2008

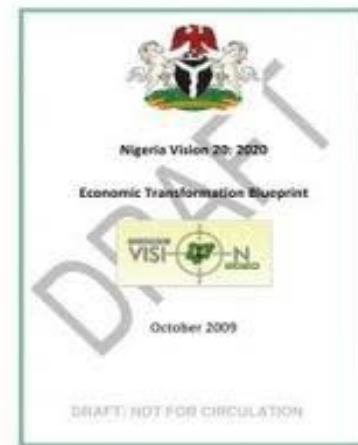

As a result of recent advocacy efforts, and demonstrable successes, the current government increased the share of NBS' capital budget (used for data production) from 9% in 2012, to 20% in 2013

INTRODUCTION...

What's driving the demand for data?

ENDOGENOUS DEMAND?

A

Paradigm shift to results based management from financial to output to performance and outcome measurement.

B

Return to strategic planning by FGN

C

Increased demand for accountability from citizens.

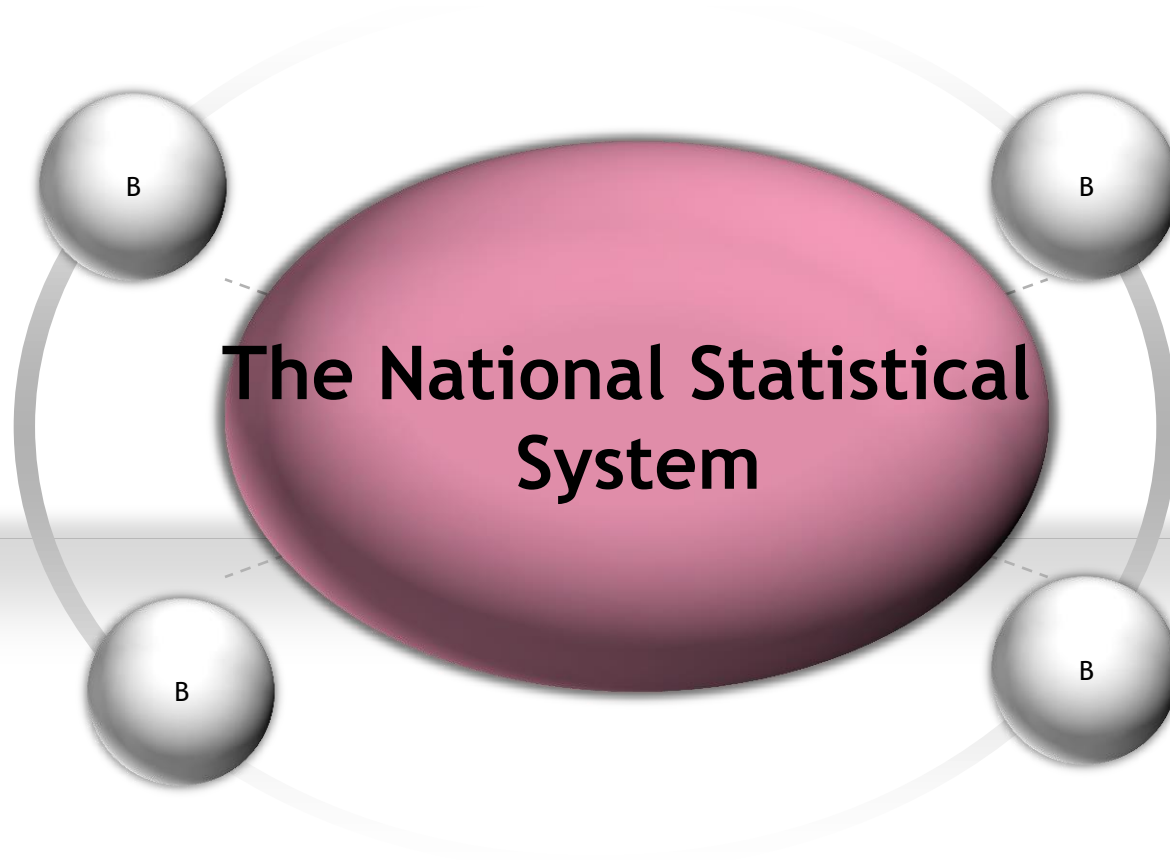

D

Return to Democracy after 3 decades of military dictatorship

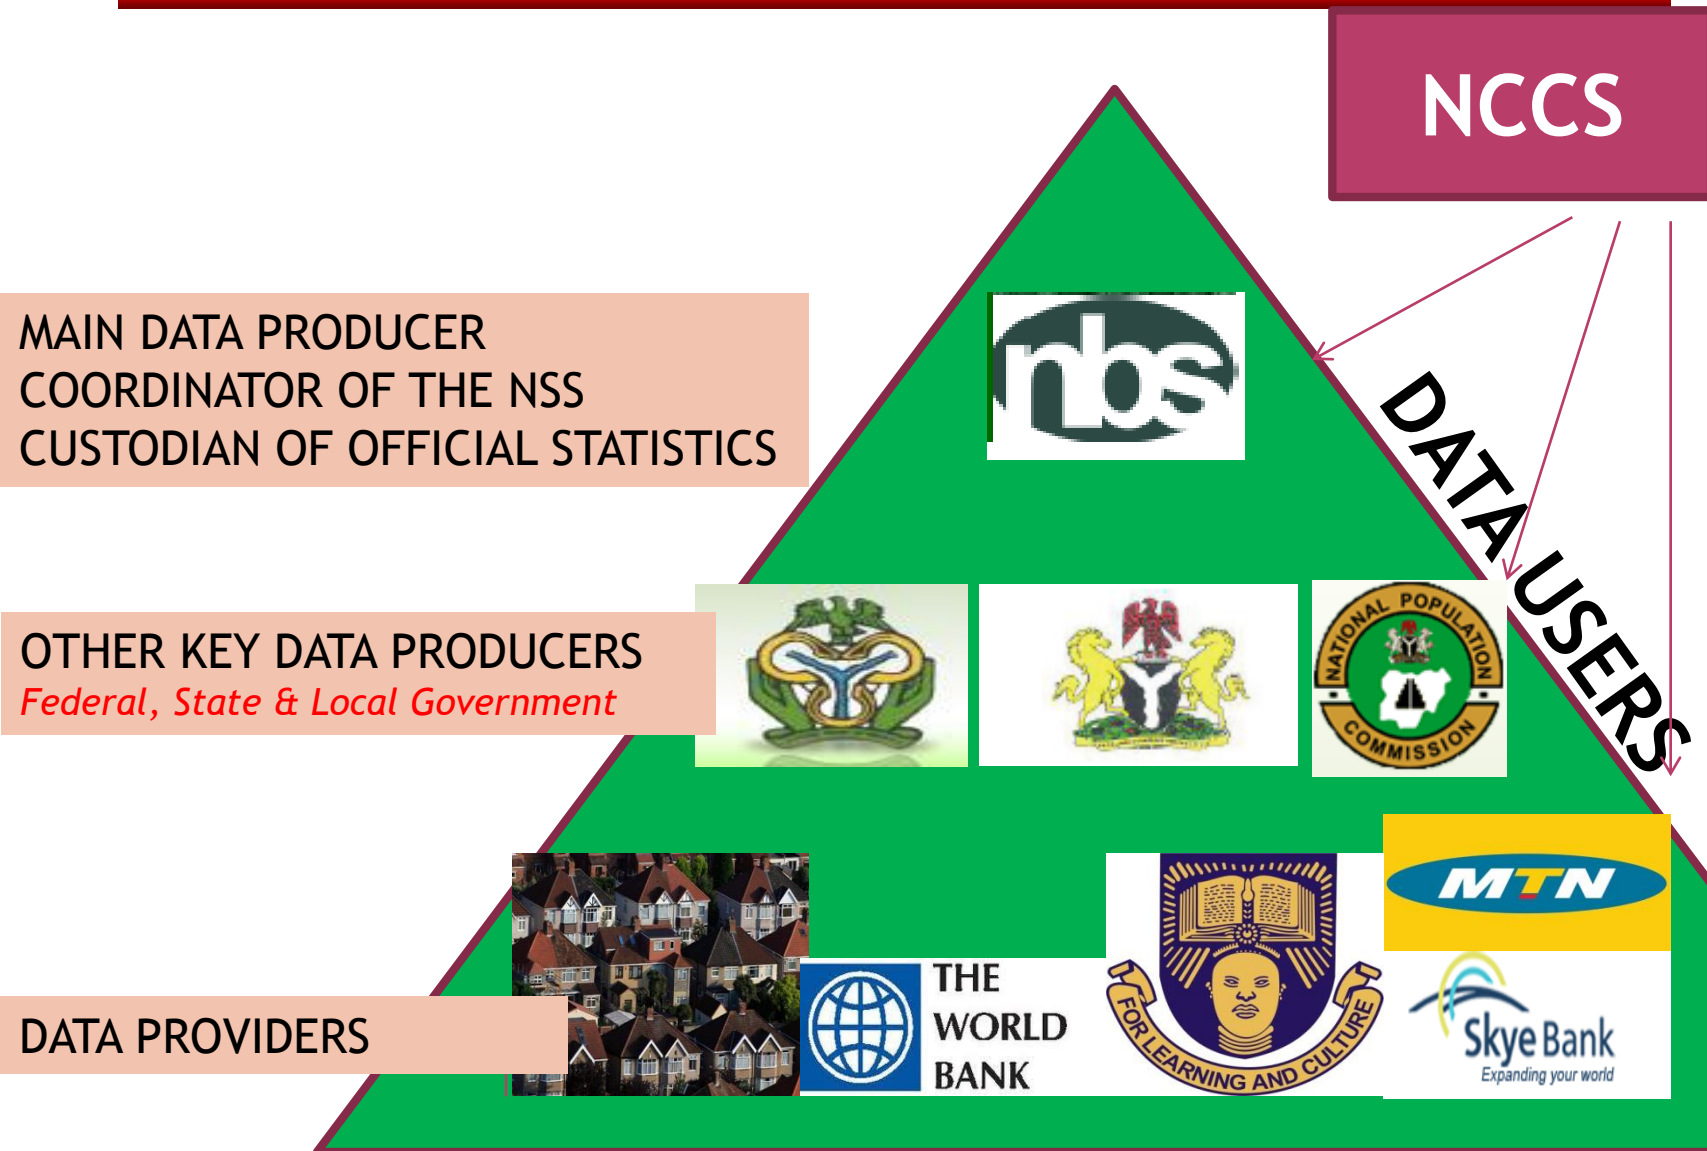

SECTION B

Current structure and functions of the National Statistical System

The operation of the NSS and interaction between elements is guided by the NSDS

How the National Statistical System works

NSS/NBS generates data primarily through 2 methods

- **System of Administrative Statistics (SAS)**
 - Direct/periodic reporting of indicators compiled in the course of data providers' normal business activities
 - NBS now has at least one contact person from 25 MDA serving as NBS focal person
- **Surveys/Censuses**
 - Periodically undertaken to ascertain the current state of affairs of particular indicators
 - Major ones include Establishment survey, HNLSS, GHS, etc
 - Similar/related surveys are being harmonised to increase efficiency
 - Increasingly, other agencies are collaborating with NBS to undertake issue/sector-specific surveys e.g NACS, SMEDAN, GAT, MOH etc

How the National Statistical System works

Administrative Data Production

PAST SITUATION

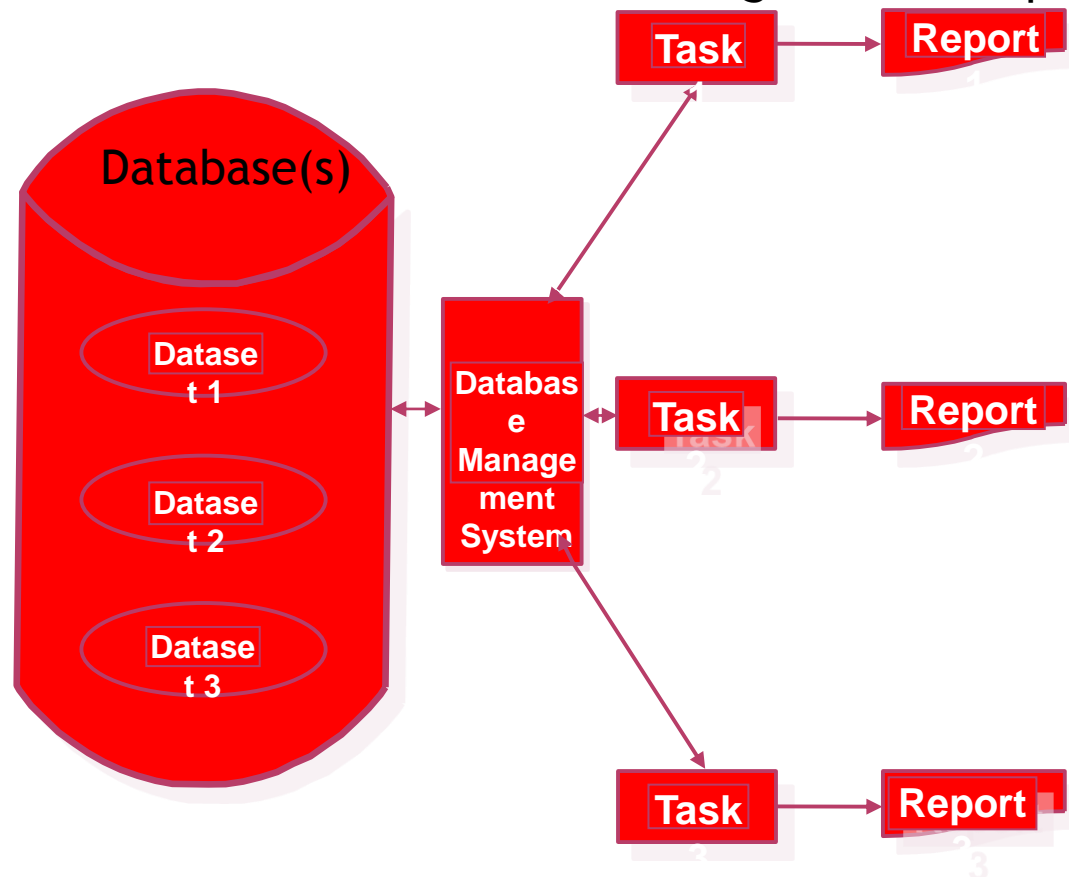

- Past methods of assembling and managing administrative statistics rely on manual technologies which are slow and in the long run expensive. The methods are also very inefficient.

How the National Statistical System works

CURRENT METHOD

- ◉ The foregoing shortcomings of assembling and managing administrative statistics make it desirable to introduce new technologies into the process.

How the National Statistical System works

- **CPI and Inflation report** (Monthly)
- **Economic Review / Outlook** (Annually)
- **General Household Survey** (Annually)
- **GDP Report** (Quarterly/Annually)
- **Foreign trade news** (Quarterly/Annually)
- **Access to ICT Report** (Annually)
- **Sectoral Wages & Emoluments** (Annually)
- **Unemployment** (Annually,>> Quarterly)
- **Gender statistics Newsletter** (Quarterly)
- **National Literacy Survey** (Annually)
- **Consumption pattern in Nigeria** (Annually)

Malawi sees troubled economy slowly growing Friday, June 08, 2012

NBS Data Portal

Did You Know...
Others contributed 6.74% to the GDP in Q1, 2012.

[NBS Data Portal](#) | [Data Release Calendar](#) | [Message From SG](#) | [Press Center](#)

The main goal of the proposed NBS Online Data Analysis Portal is to allow for dissemination of statistical data with a wide range of functionalities.

NBS Data Warehouse The data warehouse is a query-intensive environment. At any time, different users of the NBS Data Warehouse might be executing multiple, big or small, queries to perform all types of data analyses. Part of the value of a data warehouse is to provide optimal data accessibility and manipulation. Web based Data Portal NBS Data Portal is built on a web-based platform. [Login](#)

Latest Releases

- Q1 2012 Foreign Trade Report
- Micro Small and Medium Enterprises in Nigeria, 2010
- National Agricultural Sample Survey, NASS 2010/2011 (Draft Report)
- Q1 2012 GDP Report
- CPI and Inflation Report, April 2012
- Review of the Nigerian Economy in 2011 & Economic Outlook 2012-2013
- General Household Survey-Round 2010-2011

- 2011 Socio Economic Survey: Unemployment 2011

SECTION C

Supporting national planning: Policy formulation and plan implementation

- ✓ Plan preparation
- ✓ Policy choice
- ✓ Programme design
- ✓ Project implementation

Supporting poverty national planning:

- Measuring governance and accountability

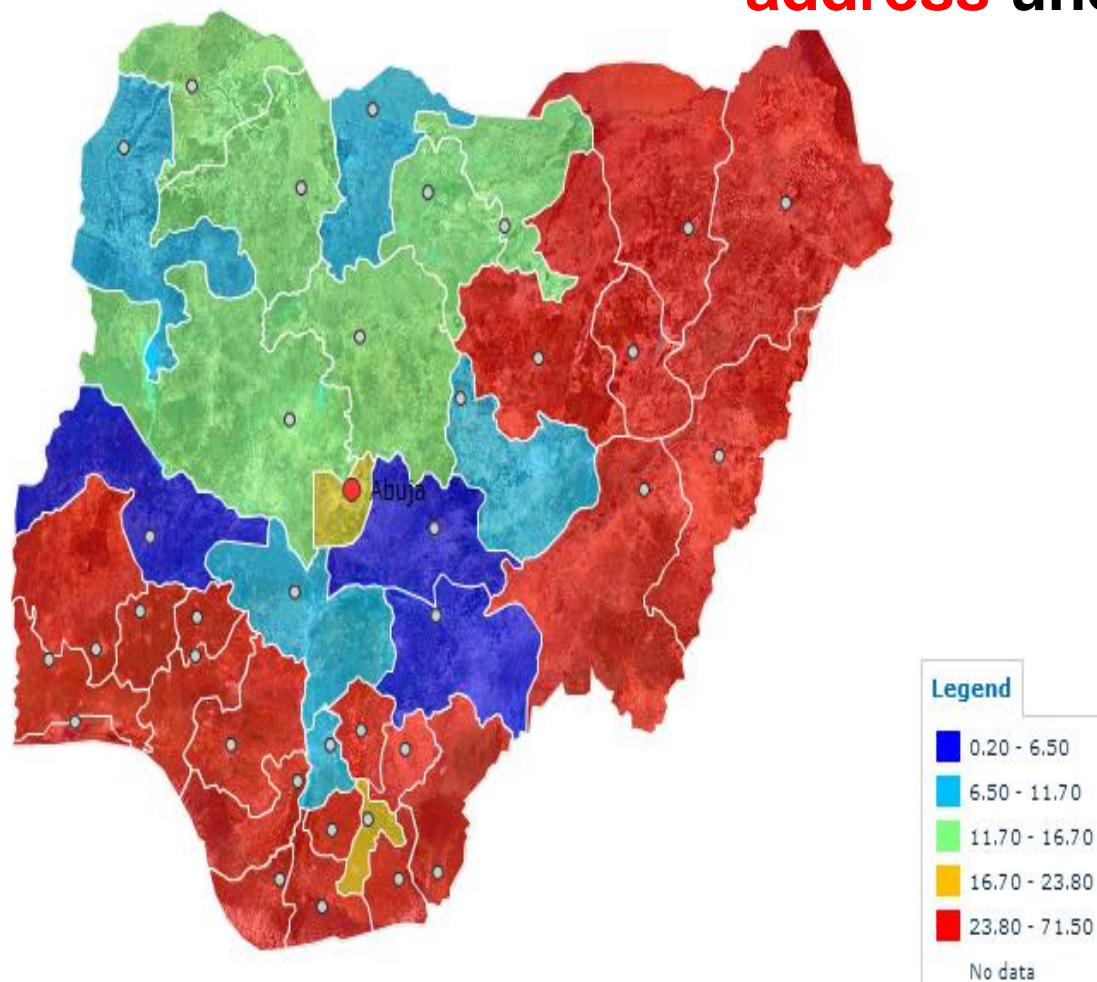

-engendering public debate

- informing public choices

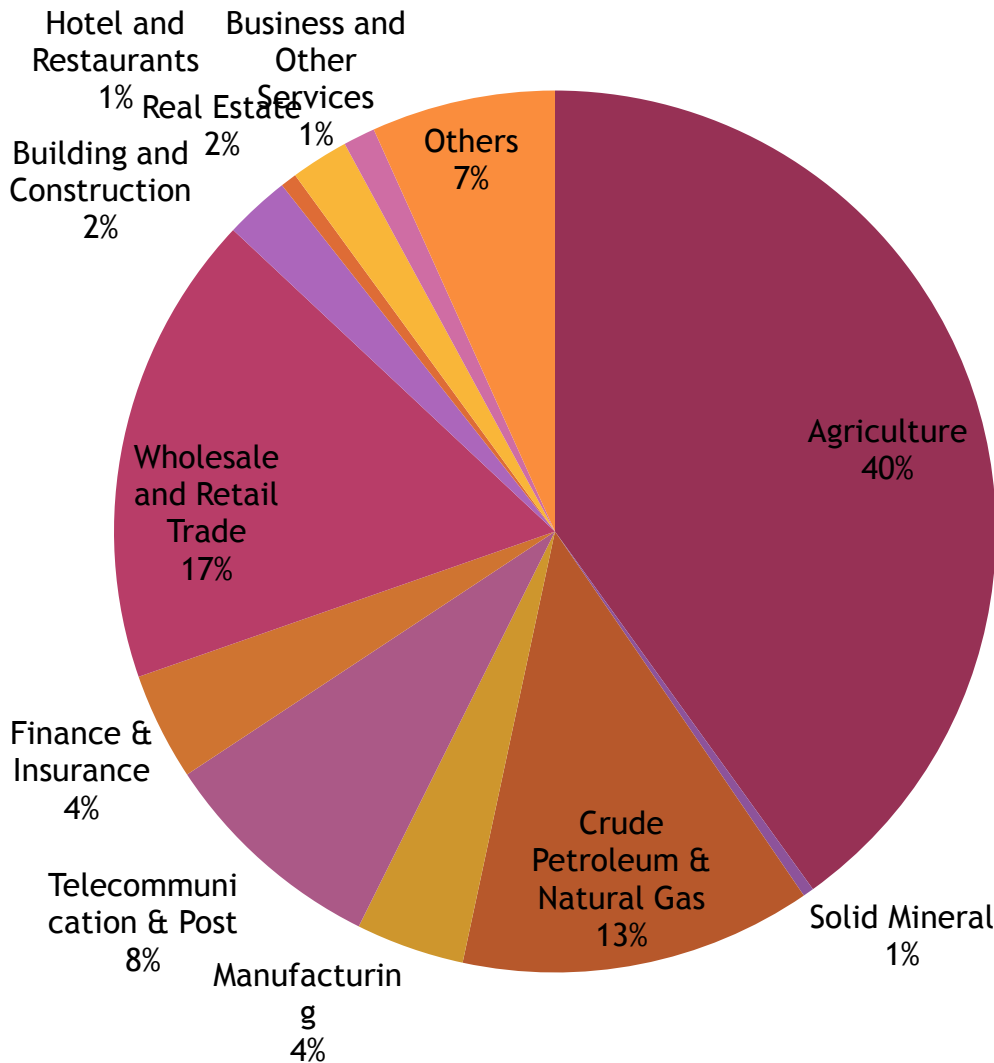

Supporting national planning: unemployment

Which States would benefit more from a targeted programme to address unemployment?

Socio-Economic Indicators - Unemployment Rates by State - 2010

Supporting sectoral planning: contribution to GDP (Q2 2013)

Largest contributors to GDP

- Agriculture
- Wholesale and Retail Trade
- Crude Petroleum and Natural Gas

Policy implications

- Not really job-creating sectors
- capital intensive (Oil), consumption of imported goods (W&R), subsistence-based (agriculture)

Why does the manufacturing sector contribute so little to GDP?

Supporting regional planning: BRACED STATES

B . R . A . C . E . D

○ Six contiguous South-South States

- Bayelsa, Rivers, Akwa-Ibom, Cross River, Edo and Delta

Supporting regional planning: BRACED STATES

BRACED focal areas of development

- Agriculture
- Environment
- Infrastructure Development
- Human Capacity Development
- Industrialization

The **BRACED** focal areas ultimately resolve to sectoral plans which are expected to be:

- coherent
- consistent
- comprehensive
- data-based

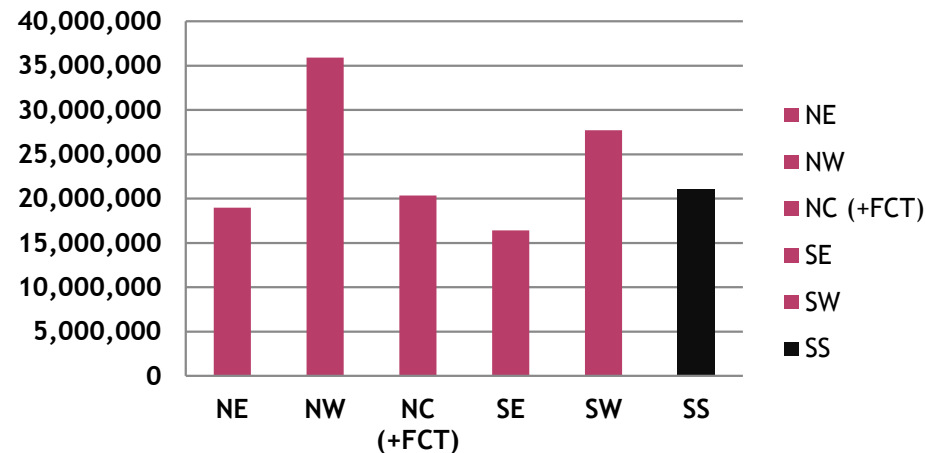

This is where **DATA** becomes relevant!

Supporting regional planning in BRACED: Human capacity development

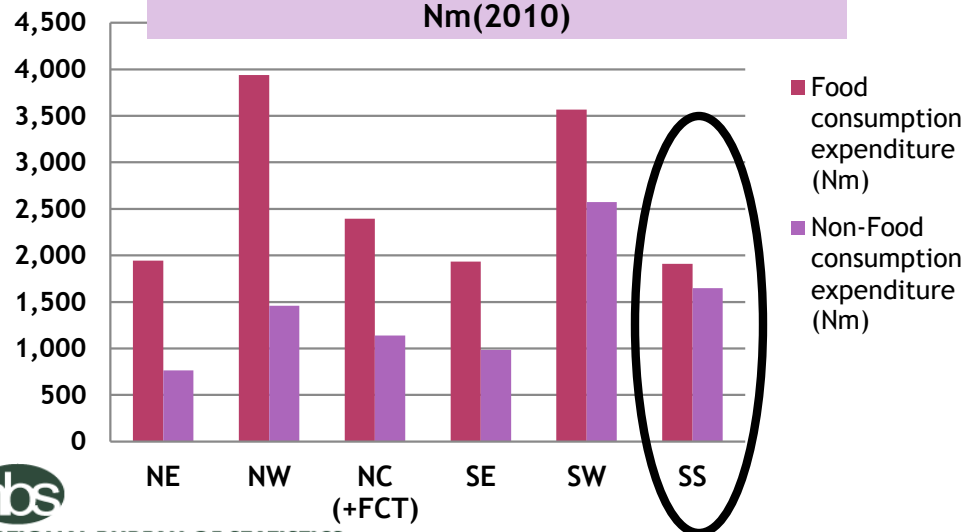

Nigeria - Population distribution by zone
(2006 census)

- Population size across BRACED is not in any way a disadvantage as it is the 3rd most populated zone

Nigeria - Household expenditure by region in Nm(2010)

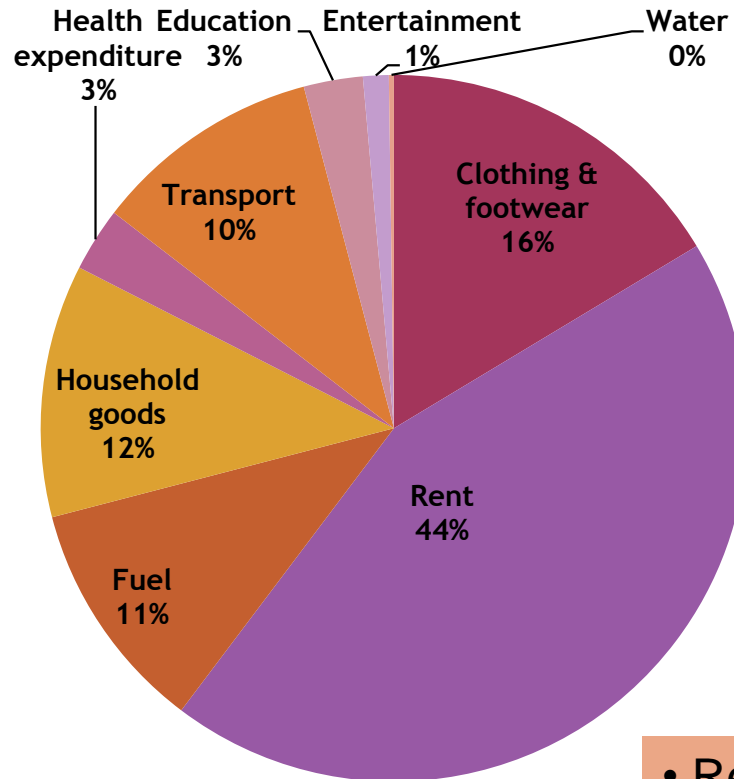

- BRACED States have the 2nd highest non-food consumption expenditure levels and the lowest food consumption expenditure levels

Supporting regional planning: BRACED STATES

Distribution of non-food consumption expenditure in the South-South Zone (2010)

- Rent, clothing, household goods and fuel indicate the highest expenditure items (>70%) in BRACED in 2010

Supporting regional planning: BRACED STATES: agriculture

Socio-Economic Data - Production of Crops, 000 Metric tons, Cassava - 2006

- A major producing region for cassava, yam and other tubers...
-there's more to the BRACED Region than Oil!

Legend

Supporting regional planning: BRACED STATES

Zonal share of total area of forest reserves (ha) 2010

- Relative abundance of forest cover may be threatened by other environmental concerns...

Nigerian Conservation Foundation

- “The Niger-delta is one of the **most endangered ecosystems** in the world...”
- “an **estimated 1.5 million tons of oil spillage** into the Niger Delta over the past 50 years...equivalent to one Exxon Valdez spill in the Niger Delta each year.”

Supporting regional planning: BRACED STATES

Number of SMEs (50-199 employees) by zone (2012)

- There is room for improvement in the number of SMEs in BRACED

Supporting regional planning: BRACED STATES

Socio-Economic Indicators - Unemployment Rates by State - 2010

- Unemployment in the BRACED is one of the highest in the country!

- ...but it is not the only region with high rates!

- **Implication:** while different regions have the same problems, they may be due to different reasons....

- ...necessitating different policy prescriptions!

- Only Data can tell us this!

SECTION D

State GDP Compilation project

- ◉ The key measure for international comparison of economic activity is the **Gross Domestic Product** of a country
- ◉ The State Gross Domestic Product (SGDP) is the state equivalent to a country's Gross Domestic Product (GDP).
 - measures overall economic activity in a State and signals the direction of aggregate economic activity in that state.
- ◉ Nigeria operates a federation of 36 States and FCT
 - Several States, One economy

State GDP Compilation project

- Information about the level of economic activity at State level is important :
 - Addressing social problems e.g unemployment, poverty
 - Identifying sectors / States with competitive advantage, and inhibiting/conducive factors
 - Revealing structure of state economy
 - Supporting evidenced-based State planning and policy
 - Depicting States' contributions to national output
 - Engendering healthy competition and interstate comparison of economic development, comparative advantage, regional development.

State GDP Compilation project

Final Report

- The Report of the SGDP computation in Nigeria is undergoing final o validation by States

Analytical Framework

- **Report will reveal:**
 - The relative position of the 7 pilot States by broad economic sectors i.e Agriculture, Industry and Services
 - Drivers of the economy of each State, i.e percentage distribution or contribution by sectors/activity to the GDP of the State
 - Strength of each State by economic activity i.e size of each sector at current basic prices over 2009-2011

State GDP Compilation project

Gross Domestic Product (GDP) at Current Basic Prices by Sector for the Seven Pilot States 2009-2011 (N'Million)

2009							
STATES	Anambra	Cross River	Gombe	Kano	Lagos	Niger	Rivers
<i>Agriculture</i>							
<i>Industry</i>							
<i>Services</i>							
GDP							

Gross Domestic Product (GDP) at Current Basic Prices: Percentage Distribution by Sector for the Seven Pilot States 2009-2011

2009							
STATES	Anambra	Cross River	Gombe	Kano	Lagos	Niger	Rivers
<i>Agriculture</i>							
<i>Industry</i>							
<i>Services</i>							
GDP							

State GDP Compilation project

Gross Domestic Product (GDP) at Current Basic Prices <i>by Economic Activity for the Seven Pilot States 2009-2011</i> (N'Million)							
2009							
STATES	Anambra	Cross River	Gombe	Kano	Lagos	Niger	Rivers
Agriculture							
Crop Production							
Livestock							
Forestry							
Fishing							
Industry							
Coal Mining							
Crude Petroleum & Natural Gas							
Metal Ores							
Quarrying & Other Mining							
Oil Refining							
Cement							
Other Manufacturing							
Electricity							
Water							
Building & Construction							
Services							
Wholesale and Retail Trade							
Hotel and Restaurants							
Road Transport							
Rail Transport & Pipelines							
Water Transport							
Air Transport							
Transport Services							
Telecommunications							
Post							
Financial Institutions							
Insurance							
Real Estate							
Business Services (Not Health or education)							
Public Administration							
Education							
Health							
Private Non Profit Organisations							
Other Services							
Broadcasting							
GDP at Current Basic Prices							

CONCLUSION

- There is a re-awakening in the demand for data on Nigeria's economic statistics
- To meet this demand, Nigeria's Statistical System has evolved through different phases of development, currently it is:
 - user-focused
 - technology-driven
 - Focused on improving quality of data
 - Emphasising statistical advocacy
- This paper has demonstrated :
 - the importance of data to supporting evidence-based policy formulation as well as different aspects of planning
 - Initiatives being undertaken to re-set the statistical system
- The Challenge to this forum:
 - How are we supporting the National Statistical System?

CONCLUSION

GOAL

A robust and efficient statistical system that produces good quality, reliable and timely statistics

- Adequate funding
 - Human capital development
-
- Supporting continuous demand for data
 - A co-ordinated approach to implementation

THANK YOU FOR YOUR ATTENTION!
